

Traditional Allografts

Unicortical Block

Traditional Allografts

In addition to Bacterin's proprietary allograft portfolio, select traditional allografts are available. These matrices are used for multi-disciplinary applications including: Spine, Neuro, Trauma, Foot and Ankle, Sports Medicine, Cranio-Maxillofacial, and Plastic/Reconstructive Procedures.

Tricortical Block

Femoral Cortical Strut, Split

Traditional Allografts

101006	Ilium Tricortical Block 6 mm
101007	Ilium Tricortical Block 7 mm
101008	Ilium Tricortical Block 8 mm
101009	Ilium Tricortical Block 9 mm
101010	Ilium Tricortical Block 10 mm
101011	Ilium Tricortical Block 11 mm
101012	Ilium Tricortical Block 12–14 mm
101015	Ilium Tricortical Block 15 mm
101016	Ilium Tricortical Block 16–21 mm
101022	Ilium Tricortical Block 22–25 mm
101040	Ilium Tricortical Strip 40 mm
101045	Ilium Tricortical Strip 45 mm
101050	Ilium Tricortical Strip 50 mm
101055	Ilium Tricortical Strip 55 mm
101060	Ilium Tricortical Strip 60 mm
103015	Cancellous Crushed 0.1–4 mm 5cc
103115	Cancellous Crushed 0.1–4 mm 15cc
103130	Cancellous Crushed 0.1–4 mm 30cc
103045	Cancellous Crushed 4–10 mm 5cc
103415	Cancellous Crushed 4–10 mm 15cc
103430	Cancellous Crushed 4–10 mm 30cc
104205	Unicortical Block 5 mm
104206	Unicortical Block 6 mm
104207	Unicortical Block 7 mm
104208	Unicortical Block 8 mm
104209	Unicortical Block 9 mm
104210	Unicortical Block 10 mm
106040	Fibula Segment 40–100 mm
106101	Fibula Segment 101–150 mm
105300	Femoral Cortical Strut – 200 mm Split
